**OBJECTIVE:**

Seeking a senior iOS developer position in a progressive company or startup with interesting, innovation project.

**TECHNICAL SKILLS:**

- **PROGRAMMING LANGUAGES:** Swift, Objective-C, Perl, Python, JavaScript, Java, Delphi (versions 3.0 - 6.0), Turbo Pascal (versions 7.0), Borland Pascal, Visual Basic 6, Visual C++, i86/286/386 assembler, transact SQL.
- **OPERATING SYSTEMS:** iOS, WatchOS, MAC OS, Windows, MS DOS (version 3.3 - 6.22), Linux(Red Hat, Gentoo, CentOS, Ubuntu), FreeBSD
- **DATABASES:** Oracle, MySQL, SQLite, Dbase, Interbase, Clarion.
- **SOFTWARE:** OpenOffice, MS WORD, MS PowerPoint, Adobe PhotoShop, Corel Draw, MS Excel, WinCVS, SVN, Jira, Trello, GIT, BugTrack, Zeplin, Firebase.
- **NETWORK:** TCP/IP, Windows NT/2000/XP Linux based server and workstation configuration, network setup and administration.

**PERSONAL SKILLS:**

- Good communication skills and flexibility.
- Researching to resolve the technical problems and improve quality of work.
- Learning new technologies, features, and methodologies.
- Friendly and loyal to people and company.

**WORK EXPERIENCE:**

**FitPoint ([www.fitnesspointapp.com](http://www.fitnesspointapp.com)) February 2020 - now**

Add features, fix issues, refactoring.

- Work with iCloud data synchronisation
- Research for UI, work flow etc.
- Work with WatchOS 6+ application in extension and stay alone modes.

**Scooterson ([www.scooterson.com](http://www.scooterson.com)) April 2019 - now**

Development applications for iOS devices from scratch.

- Make application architecture
- Research for UI, work flow etc.
- Coding UI, back-logic, make API on client side.
- Connect to BLE device, get and send command and data, control the BLE device.

**Chummy (<http://www.chummyapp.com>) October 2015 - February 2020**

Development applications for iOS devices from scratch. [AppStore link](#)

- Make application architecture
- Research for UI, work flow etc.
- Lead iOS team
- Coding background logic

**AppLaud (<http://www.applaud.ee>) December 2014 - October 2015**

Development applications for iOS devices to control hardware device (smart home).

- Make application architecture
- Reverse engineering firmware of hardware devices for integration with iOS
- Develop Apple Watch application

**MyHeritage (<http://www.myheritage.com>) March 2013 - December 2014**

Development application for iOS devices. Fix present application and design new from scratch.

- Make application architecture
- Develop new features, make old code refactoring and improvement
- Coding background logic

**Private consulting (self employed) 2011 (Israel) – March 2013**

Development applications for iOS devices.

- Make application architecture
- Coding background logic
- Make application testing
- Work with IdeoMobile company, develop application player as base for company applications
- Work with Hapoalim bank mobile team, develop iPad application [AppStore link](#)

**Luxoft (Kiev, Ukraine <http://luxoft.com>) 2011 – May 2011**

Senior mobile application developer

- Development mobile application on Flash Builder using Flex and AS for Blackberry Playbook platform.
- Development client-server application using XML RPC.
- Development UI and backend logic.

**Magento (Kiev, Ukraine <http://www.magentocommerce.com>) 2010 - 2011**

Mobile application developer.

- Developed mobile application on xCode IDE using Objective-C and COCOA.
- Developed client-server applications using XML.
- Developed user interface and animation.

**TeamDev (Kharkov, Ukraine <http://www.teamdev.com/>) 2009 - 2010**

Software developer.

- Developed Perl-based application integrated with Oracle database for analyzing genome research data.
- Developed Java + Selenium based automation tests for third side product (WEB UI).
- Developed Objective-C/Cocoa Touch application for iPhone/iPod platform.

**P-product (Kharkov, Ukraine <http://www.p-product.com/>) 2008 – 2009**

Perl Developer, Linux Administrator, architect.

- Developed and supported WEB oriented applications, created installation and configuration for Linux server (CentOS based).
- Worked on creation of digital image processing and storage using WEB application based on Perl and MySQL.

**BossDev (Kharkov, Ukraine (<http://www.bossdev.com/>) 2007 - 2008**

Perl Developer

- Developed WEB oriented applications, wrote logic for promotional sites, online games, etc.
- Created databases (MySQL), wrote RPC logic, etc.

**Freelancer (self employed) 2003-2007**

WEB Developer, Linux Administrator, architect.

- Develop WEB oriented applications, such as customer management services, mail subscribe services, online product database and interface, and online projects management system.
- Perl+MySQL.
- Administered remote Linux servers, including security monitoring, configuration, backup, and restore of data.

### **Haifacom (Haifa, Israel) 2002-2003**

WEB Developer and Designer, System Administrator.

- Developed WEB oriented applications, such as accounting systems and e-commerce applications.
- Created database using MySQL database and PHP 4.3 as programming languages.
- Performed network setup and troubleshooting.
- Performed system administration for WEB, FTP, Mail, Fax and printer servers and workstations.

### **Computer Warehouse (Haifa, Israel) 2000-2002**

Computer Engineer and Programmer.

- Developed custom business applications, such as accounting systems and special application for creating form layouts using a MS SQL Server 7 database and Delphi 6.0 and VB 6.0 as programming languages.
- Performed network setup and troubleshooting. Performed system administration for servers and workstations.

### **Bug 2000 (Kiryat Shmona, Israel) 1999-2000**

Computer Engineer and Programmer

- Tested existing software and hardware for year 2000 problem and fixed them using special hardware and program solution.
- Programmed using Delphi 5.0 and VC++.
- Performed network setup and troubleshooting.
- Performed system administration for servers and workstations.

### **Consulting F1-service, (Kharkov, Ukraine) 1991-1999**

Programmer/Analyst.

- Developed applications based on client request using Delphi 3.0 and Turbo Pascal 7.0.
- Designed database architecture. Created web application for MS Access databases.
- Tested application security and data protection against hacking.

### **EDUCATION:**
